Notes to Designers

– This template file has been reduced to **50%** of actual size.
Please ensure to use **300 pixels** per inch at full size for best graphic printing quality.
However, in case if you don't have best quality pictures,
please make sure to keep your resolution at **100-120 pixels** per inch at full size.

– Scan/Photoshop files should be saved in **CMYK** mode as **TIF** or **JPG** format.
When placing such files in Illustrator, please **EMBED** the images in the Illustrator file.

- Color mode should be **CMYK** to ensure best color matching.
Please **DO NOT use RGB** color mode.
If you have specific logo/corporate colours please provide the **Pantone Code**.

– It is best to convert all text to **Outline** and **Flatten** all images to ensure
that nothing is missed out or changed during the transfer of files.

– Using guidelines to remain within the margins will prevent mistakes and save your
artwork elements from getting cut off.

– The **Bleed Zones** are hidden inside the hardware. However,
STRONGLY Recommended:
Extend your background graphics to the edges to the art board to ensure
proper bleed with no visible unprinted areas.

– This file is itself a template and can be edited to design your graphics.
Please make sure to **delete this layer** before submintting your artworkor
or it will be printed in your finished product.

– **PDF** is the best format to submit your artwork work.
However, we also accept these file formats, as below:
Illustrator(AI / EPS) Photoshop(TIF / PSD)
